Application Support: Troubleshooting, Debugging, Log Analysis, Application & Server Configuration, Deployment Support, Upgrades, LDAP

Solution Delivery: Requirements Gathering, Solution Design, Workflow Automation, UAT, Testing, Documentation, Client Training

Languages Known: English, Hindi, Telugu, Tamil

Professional Experience

Application Support Engineer | Zoho Corporation, Chennai | November 2025 to Current

- Supported customers worldwide using Zoho Creator On-Premise and ManageEngine AppCreator by troubleshooting issues within the application, configuration, integration, deployment, and platform-related issues.
- Experience in B2B SaaS application support with Low-Code platforms, incident management, SLA adherence, ticketing systems, troubleshooting, and root cause analysis, with a strong technical understanding of enterprise applications and the ability to communicate effectively with customers, partners, and internal stakeholders.
- Developed a frontend global-search widget for Zoho Creator that enables users to search field values across stacked report-sheet views, addressing a requested platform capability and preparing the solution for publication on Zoho Marketplace.

Solution Developer Intern | Zoho Corporation, Chennai | April 2024 to October 2025

- Developed and customised business applications using SaaS products such as Zoho Creator, CRM, Desk, Zoho Workplace and Books to automate sales workflows, multi-tier support routing, financial invoicing, and external stakeholder portals.
- Built forms, reports, dashboards, workflows, validations, blueprints, approval processes, AI agents and custom functions using native Zoho tools and Deluge.
- Developed integrations between Zoho applications and third-party systems using REST APIs, webhooks, OAuth, and JSON, including data migration and synchronisation.
- Worked with client requirements through solution design, testing, troubleshooting, deployment, documentation, and user training across sales, marketing, support, HR, and accounting use cases.

Trainee | Zoho Schools of Technology, Chennai | May 2023 to April 2024

- Completed training in programming, web development, client-server concepts, databases, problem solving, and software engineering fundamentals.
- Worked on practical software projects involving application development, debugging, databases, and web technologies.

Education

Bachelor of Computer Applications (BCA), Data Science | SRM Institute of Science and Technology (SRMIST) | Online | Expected Graduation: July 2027

Certifications

- **Java (Basic) – HackerRank**

Passed the HackerRank Java Basic skill certification assessment, covering concepts such as classes, data structures, inheritance, and exception handling.
